## HOLLOWELL CASE SETTLEMENT NOT LEAST IN DOUBT

Came, But Not in Shape to be Made of Record.

Attorney J. G. Miller Goes to Evansville to See Clients.

NEXT MEETING AT PRINCETON.

"Easy there, let out a litle more line. We nearly had him that time. My, he's a beauty and hard to land.' Fishermen know that talk and the situation that excited it, and persons conversant with the Hollowell compromise case, know that it is as sure to end as exclusively foreasted in The Sun, as the fish is certain of being landed. The attorneys in the case had the compromise settled days ago, but technical details have delayed the "landing" of the money.

Attorney J. G. Miller received authority to accept the \$15,000 settle ment yesterday afternoon, from the Hollowells in Evansville, but Attorney Ward Headley did not like the way the authority was expressed. The letter from the Hollowells, in addition to conferring authority on Attorney Miller to close the deal, gave some other information, irrelevant to the case, and this made the leter unfit to to be placed on record.

So Attorney Miller left for Evans ville last night to get the kind of statement Mr. Headley wants, and Mr. Headley left for Princeton at non today, where he will meet Attorney Miller this afternoon and "land" the compromise. Mr. Miller took the bull by the horns in going to Evansville deciding not to "pay out any more line" by waiting on telegrams and letters. He will get express authority to legal form to accept the settlement agreed on the first of the week, and will doubtless return to the city tonight or in the morning, with the same certificate in his pocket that Mr.

this was the only thing that made a no misunderstanding existed as to the amount to be paid by the 28 defendants but that before he would turn over the money he wanted from the Hollowells a receipt for it in the shape of express authority for the deal.

That the Hollowells might change their minds and demand a larger set not seem probable to Mr. Headley.

#### In Honor of Guest.

The Ladies' Auxiliary of the Order of Railroad Conductors was delight fully entertained last night at the home of Mr. and Mrs. W. J. Lewis, 1008 Trimble street, in honor of Mrs. L. B. Waltz. A geographical contest was the feature of the evening. J. Henry Lewis won first prize in the contest, a handsomely painted picture. The booby prize was won by Mrs. Houlihan. Both the prize winners gave their trophies to Mrs. Waltz, for whom the party was given. The house was beautifully decorated for the occasion. The color scheme out very artistically. In the corner of the front room Mrs. J. S. Wessen served punch from a small booth, prettily decorated. On the table in the dining room was a large embroidered center-piece and a beauti ful bunch of carnations in a vase. Cream and cake were served in the dining room. Those present were: Mrs. L. B. Waltz, Mr. and Mrs. T. J. Flynn, Mr. and Mrs. I. D. Harrington, Mr. and Mrs. J. N. Moore, Mr. and Mrs. Will Kelley, Mr. and Mrs. W. J. Lewis, Mrs. Henry Harris and son, J. Henry, Mr. and Mrs. J. S. > Lumber on large contracts is 20 ime last year. In fact, a building in this city that cost \$5,700 last spring can be duplicated for \$4,700 this month. Iron is from 15 to 20 per ent cheaper and brick are 15 pe ent lower than at this time last year. In every other material that goes into a building a reduction has occurred that makes the average cost of construction one-fifth less than 12 months ago.

On the new church to be built by the Trimble Street Methodist congregation at Fountain avenue and Monoe street, a saving of from \$4,000 to \$6,000 will be effected by building low. It was this fact that caused he congregation to hurry up their plans for a new church. Business men in the city, who have been here ong enough to know the facts in the past, say that it would be necessary ituation.

Turning from his arraignment of the administration for an alleged mistreatment of colored soldiers in the Brownsville affair to supporting Roosevelt for another term as president, gives Senator J. B. Foraker the political death struggle.

POLITICS, POLITICS, POLITICS! Newspapers and partisan so often approach a subject in an unpatriotic fashion. Political advantage in the hope of winning, without regard to the comparative benefits to the country of this policy or that policy are all in all to such small fry. For instance, a contemporary solemnly re- cendiary speeches inciting planters to

"The last two days of congress are at hand and it must be evident to the most casual observer that very few of those things for which the president has contended have become laws. No provision has been made for maintaining the waterways commission. Congress has taken no step looking to the conservation of our natural resources. Nothing has been done to carry out the Roosevelt suggestion that the government retain the ownership of the mineral resources of the public lands. The was conspicuously honored by Missis-Roosevelt contention for a graduated sippi. Only memory soon will hold income tax and the other proposition emanating from the white house designed to check the concentration of wealth into a few hands have made an inspiration to the whole nation, no impression upon congress.

"Even the anti-injunction bill has been put to sleep and it is by no means certain that the Hepburn bill modifying the Sherman anti-trust act will be passed.

"All hope of currency legislation has been abandoned. The president's demands for naval expenditures have also been turned down. The net result of the presidential agitation from the stump and the frequent bombardment of the capitol with ex- danger of ignition from engine sparks, ecutive messages in the passage of an unsatisfactory bill re-enacting the employers' liability law, declared unconstitutional by the supreme court and the bill regulating child labor in the District of Columbia.

"This would be a significant and interesting situation at any time and i is particularly so at the beginning of a presidential campaign. The president has triumphed through the power of federal patronage in the contest for control of the national convention, but his enemies are en trenched and fortified in the legislative branch of the government. At the end of the session of congress

The Paducah Sun for party success and national good, which requires only party unity and narmony to make a certainty."

Now we should like to know: Doe prove that the Democrats of the nation are now facing an opportunity our contemporary believe in maintaining the waterways, in the conserva-tion of natural resources, government control of mineral resources and pubic lands, the graduated income tax, a check on the concentration of wealth by predatory means, the modification of the injunction in labor troubles the amendment of the anti-trust lav to make it effective and equitable, currency legislation, a better navy mployer's liability reform, child laor restrictions and the publicity of campaign contributions?

Those are admitted by our contemorary to be Rosevelt policies; it has epeatedly accused Taft of being Roosevelt man and heir apparent to his policies. If our contemporary be leves in these things, then it must in dorse Roosevelt's administrative ef forts, and approve a man acceptable o President Roosevelt as best fitted o carry out those policies.

Who cares whether it is called Democratic or Republican, so it

THE NIGHT RIDER'S PORTION. The pardoning of Mrs. Mary Holle well, who is indicted in Caldwell county for the alleged scraping of the plant bed of her brother-in-law, John E. Hollowell, should indicate to the night riders, what they may expectthe worst of it.

Compared with the verdict of \$35 000 in Robert Hollowell's case and the \$75,000 suits pending in the federal court, \$15,000 is small, but few more such verdicts will make the assessments of the night rider organization oppressively high and numer-

The assassination of Vaughan Bo nett the mysterious murder of New ton Hazelette in Shelby county, and Average for April, 1908.....4102 the death of the boy returning from the Hopkinsville raid, should carry a esson to the heart of every member Personally appeared before me, this of the band. A night rider is fair game for any gun, and the man who ness manager of The Sun, who affirms kills one on a raid is no more subject vicious dog. Lots of eyewitnesses to April 1908, is true to the best of his the murder of Vaughan Bennett are known, but none of them dares appear in court; because he wore a mask and carf. Just as many could be sumnoned to tell about the Hazelette illing, but they will not answer to heir names.

Think of the funeral of that Trigg ounty youth. Masked men deposited his body at his father's door and never told how he died. People are learn ing how to deal with night riders and it is growing more and more dangerous to attempt outrages against. the persons and property of citizens o Kentucky. Only one now and then killed, it is true: but who knows who the next one will be? It may be the son or husband or brother or father of some night rider sympathizing wo man. Think of him lying dead beside the road, deserted by his lawless com panions, who, knowing his assassing dare not prosecute him; and the death must go unavenged unless the code of the mountain feudist adopted. Then, indeed,, will night rider blood baptize Kentucky's soil.

Why a man, who owns property title to which and the right to quietly enjoy which, are guaranteed by the law, should defy the civil authorit for the protection of which he pays axes, and bind himself by oath to oppose the law, is beyond the comprehension of a reasoning being.

If the law prevails, he will b brought to justice; if it does not his property rights are in jeopardy. Even the night rider lawyers, who make indisorder, cannot refute this logic.

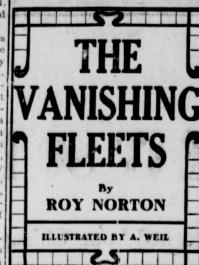

GENERAL STEPHEN D. LEE. Another great Civil war figure ha assed away by the death of Genera Stephen D. Lee, last of the brillian array of Confederate lieutenant gen erals. Like most of the other leaders of the Lost Cause, General Lee was educated at West Point for the United States service, but when the breach came, he cast his lot with his native state. Since the war he had been continuously in the public service and dear the heroism of that day, and the courage displayed by men on both sides in that terrible war should be rather than a source of bitterness.

A WARNING. We have had our warning. That blaze in the Standard Oil property confined as it was this time, may save the city thousands and thousands of dollars, if the warning is heeded. Per haps, no other community would have suffered the presence of such a men ace in the heart of the city as long as Paducah has. The location of the tanks along the railroad, in constant adds to the menace. The whole city should not be subjected to danger merely for the convenience of the Standard Oil company. Those tanks should be removed outside the city

# June 1, SIX YEARS IN PADUCAH June 1, 1902

On Jure 1st, six years ago, I began business in Paducah Six years of hard work; six years of honest effort to give my customers honest values; six years I have held to the belief that my methods would bring good results. I believe that a man or a firm gets trade if they know how to go after it, and I would rather have your patronage today than your promise tomorrow. I have not yet lost faith in my business ideas. I firmly believe that my business will grow and increase just so long as honest goods, low prices and prompt and courteous treatment make an appeal to the buying public.

We celebrate June 1st with an anniversary sale. Come and see us and take advantage of some of our Special Offerings. We have music Monday, afternoon and evening. Our electric fans and air pipes make our store the coolest in Padu cah. Our Soda Fountain is dispensing the most refreshing drinks.

Watch the daily papers for notices of our Special Bargains. Understand, we surely want your trade, or part of it at least, during the next six years. Will you not give us a trial and see if we deserve it?

HOW TO CURE SKIN DISEASES. Eczema, pimples, dandruff and itching skin diseases are of local origin and are caused by germs, It order to cure these diseases germs and their polsons must be driven to the surface of the skin and destroyed. Salves and greasy lotions may give temporary relief, but they do not destroy the germs that cause the disease. A St. Lbuis chemist has discovered a clean vegetable liquid emedy that will draw the germs and heir poisons to the surface of the clear, healthy skin. This remedy is known as Zemo, and by its many remarkable cures has attracted the atention of the leading scientists and

kin specialists of this country and Europe. Zemo has been given the most cordial reception by the public of any similar remedy ever produced, and it ward Parker, a few days ago caught

One of e most interesting of these was the atroduction of comels by the War pepartment in 1856, to be used for ilitary and postal work in the desert ountries of the Southwest. Jefferon Davis, then Secretary of War as the prime mover in the novel scheme. Through his efforts an appropriation of \$30,000 for the puroose was secured from Congress on March 3, 1855, and in May Major Henry C. Wayne of the army and Lieutenant D. D. Porter of the navy vere sent to buy the animals.

Two voyages were made for camels On the first thirty-four were brought Arab attendants being or board, and a careful arrangement of swinging harness prevented accidents to the animals while on the transpor They were landed in Texas after hree months' journey. The next year the second consignment brought the number of camels to seventy-five. A ranch near San Antonio, Texas, was ecured, and men from the army went conscientiously about studying the camels and preparing them for work on the deserts of California, Nevada and Arizona. The trips were taken and careful records were kept of weight and forage. Wool rom the hump of one camel was spun and knit into a pair of socks for President Pierce by a lady of Victoria Texas-the only garment ever made rom American-grown camel's hair Up to 1857 the camel herd seems to have done well. A change of administration lost Secretary Davis his portfolio, and no one else seemed to care whit whether the problem of transortation in the Western deserts was lved or not. All that is known is at the camels were turned loose to hift for themselves in the new
